Attention Applicants

Thank you for your interest in obtaining a license to practice medicine in Arizona. We are excited to have the opportunity to work with you and help guide you through the application process.

Our mission is to protect public safety through the judicious licensing, regulation and education of all allopathic physicians. A license to practice medicine in Arizona is a privilege, not a right. Please do not assume that licensure is a mere formality or that granting of a license is automatic. Please give your application the time and attention needed to accurately answer all questions. It is the applicant's responsibility to ensure that the information disclosed on the application is correct.

Once your completed application and fee are received by the Board, your application will be reviewed to determine if all items needed to meet Arizona's Revised Statutes and Rules for licensure have been submitted. A checklist is provided with this application packet for your convenience.

Pursuant to A.R.S. § 32-4302; If an applicant has any complaints, allegations or investigations pending the Board will suspend the application process and may not issue or deny a license to the applicant until the complaint, allegation or investigation is resolved.

We will make every effort to complete the application process as quickly as possible. If you have any questions, please do not hesitate to call or email the Board's office. Our staff is happy to assist you in any way we can.

Again, thank you for your interest in an Arizona medical license.

Application Review Process:

Board staff will review your application and determine if all items needed to complete your application have been submitted to the Board. If it is determined that your application has deficient items, Board staff will send you a notice with a list of the items still needed to meet requirements. Please allow 15 days for your application to be reviewed by Board staff before calling and requesting a status update. Correspondence will be sent to your email address provided on the application.

Once all information needed to meet the requirements for licensure have been submitted to the Board, your application will undergo a final review by Board staff to ensure all requirements set forth in the Arizona Revised Statutes have been met.

Please note: *It is the applicant's responsibility to report to the Board any changes that may have occurred during the application process. Failure to report any adverse actions to the Board during the licensure process may result in denial or revocation of your license.*

To review the Arizona Revised Statutes to ensure that you meet the requirements for licensure, please go to www.azmd.gov.

CASE STUDIES (Multiple Choice)

This section illustrates common violations of the MPA by using case scenarios. Each scenario is followed by a multiple-choice question and the answer.

1. Sexual Conduct

Scenario: You and a patient develop mutual feelings for each other during the course of treatment. You begin dating the patient and mutually agree to begin a sexual relationship. Should you continue to medically treat the patient?

- A. Yes. The treatment began before a sexual relationship was developed. Therefore, it is appropriate to continue treating the patient as you were before.
- B. Yes. You can maintain a boundary between your personal feelings for the patient and your professional practice.
- C. No. The physician-patient relationship must be terminated six months before engaging in sexual conduct.
- D. No. A physician should never establish a sexual relationship with a current or former patient.

Answer: C. No. The physician-patient relationship must be terminated six months before engaging in sexual conduct.

A.R.S. 32-1401(27)(aa) states that it is unprofessional conduct to engage in sexual conduct with a current patient or with a former patient within six months after the last medical consultation unless the patient was the licensee's spouse at the time of the contact or, immediately preceding the physician-patient relationship, was in a dating or engagement relationship with the licensee.

2. Controlled Substances

Scenario: You are experiencing back pain after a weekend spent moving into a new home. You know the appropriate dose of Oxycodone to relieve your pain. Instead of requesting an appointment with your primary care physician you call in a prescription to the pharmacy for yourself. Are your actions appropriate?

- A. No. Regardless of how seemingly obvious the cause of the pain and type of controlled substance needed, it is never appropriate for a physician to self-prescribe a controlled substance.
- B. No. There are alternative over the counter drugs that can provide the same effect.
- C. Yes. You had the same back pain in the past and you were previously prescribed the same medication.
- D. Yes. You are a licensed physician. You know exactly what medications you need to feel better.

Answer: A. No. Regardless of how seemingly obvious the illness and type of controlled substance needed, it is never appropriate for a physician to self-prescribe a controlled substance.

A.R.S. 32-1401(27)(g) states that it is unprofessional conduct to use controlled substances except if prescribed by another physician for use during a prescribed course of treatment.

3. Professional Connection

Scenario: Your friend "Bob" wants to open a laser clinic and perform varicose vein removal. Bob is not a licensed doctor in Arizona, but he holds a medical license in New Mexico. You are confident that Bob has the education and training to safely perform varicose vein removal, even though it is considered to be the practice of medicine in Arizona. You decide to help Bob out and let him operate his laser clinic under your name. Is this appropriate?

- A. Yes. Even though Bob is not licensed in Arizona, he is a doctor and you know he will do a good job.
- B. Yes. The clinic operates under your name and you know Bob will call you with any problems.
- C. No. Varicose vein removal is considered to be the practice of medicine and Bob is not licensed to practice medicine in Arizona.
- D. No. The state where Bob is licensed may have different regulations for operating a laser clinic than Arizona and you can't be sure if Bob's clinic will meet Arizona regulations.

Answer: C. No. Varicose vein removal is considered to be the practice of medicine and Bob is not licensed to perform medicine in Arizona.

A.R.S. 32-1401(27)(cc) states that it is unprofessional conduct to maintain a professional connection with or lend one's name to enhance or continue the activities of an illegal practitioner of medicine.

4. False or Fraudulent Statements

Scenario: You are applying for privileges at a hospital and one of the questions asked of you is whether your license has ever been revoked or suspended. Knowing that the hospital will likely deny you privileges if you answer affirmatively, you opt to knowingly withhold the fact that your license was previously suspended over 15 years ago. Are your actions justified?

- A. Yes. Because your suspension was so long ago, it is likely the hospital will never find out about it.
- B. Yes. Ever since you got your license back, you have been a model physician and you have obeyed all laws.
- C. No. The hospital will eventually find out and report you to the Board, resulting in more trouble.
- D. No. It is never okay to make a false statement when applying for hospital privileges.

Answer: D. No. It is never okay to make a false statement when applying for hospital privileges.

A.R.S. 32-1401(27)(t) states that it is unprofessional conduct to knowingly make any false or fraudulent statement, written or oral, in connection with the practice of medicine or if applying for privileges or renewing an application for privileges at a health care institution.

5. Financial Interest

Scenario: You are a pain specialist and many of the patients you see benefit from a combination of pain medication and other forms of therapy, such as physical therapy. In addition to your pain clinic, you are also part owner of an outpatient physical therapy clinic. If you prescribe physical therapy at the clinic where you are part owner, should you inform the patients that you have a direct financial interest in the clinic?

- A. No. Your patients will receive good care at the physical therapy clinic and do not need to know.
- B. No. The amount of money you receive from your ownership interest in the clinic is not enough to require you to inform your patients.
- C. Yes. You should inform patients of your financial interest and let them know they can receive therapy elsewhere.
- D. Yes. You should inform patients of your financial interest, but stress that they will receive the best therapy at your clinic.

Answer: C. Yes. You should inform patients of your financial interest and let them know they can receive therapy elsewhere.

A.R.S. 32-1401(27)(ff) states that it is unprofessional conduct to knowingly fail to disclose to a patient on a form that is prescribed by the board and that is dated and signed by the patient or guardian acknowledging that the patient or guardian has read and understands that the doctor has a direct financial interest in a separate diagnostic or treatment agency or in non-routine goods or services that the patient is being prescribed and if the prescribed treatment, goods or services are available on a competitive basis. This subdivision does not apply to a referral by one doctor of medicine to another doctor of medicine within a group of doctors of medicine practicing together. A "Notice To Patients" form can be downloaded off the Board's website.

6. GENERAL QUESTIONS (True or False)

1. It is acceptable practice for me to prescribe controlled substances to my spouse and family.

(False: A.R.S. 32-1401(27)(h) states that it is unprofessional conduct to prescribe controlled substances to members of the physician's immediate family.)

2. If a patient requests her medical records, I can provide a copy of the records, not the original.

(True: A.R.S. 12-2297 states that a health care provider shall retain the original or copies of the medical records.)

3. If I don't provide the Arizona Medical Board with an office address, the Board can give the public my home address.

(True: A.R.S. 32-3801 states that a professional's residential address and residential telephone number or numbers maintained by the Board are not available to the public unless they are the only address and numbers of record.)

4. I can ask my medical assistant to provide injections to my patients while I am out of the office.

(False: Medical assistants may only administer injections under the direct supervision of a physician, physician assistant or nurse practitioner. A.R.S. 32-1456. Direct supervision is defined in A.R.S. 32-1401 as being in the same room or office suite as the medical assistant.)

5. I can earn one credit hour of continuing medical education by reading scientific journals and books.

(True: A credit hour may be earned for activities that provide an understanding of current developments, skills, procedures, or treatments related to the practice of allopathic medicine, including reading scientific journals and books. R4-16-101(B)(8).)

6. If the Board issues me a non-disciplinary advisory letter, I can file a written response with the Board within thirty days of receiving the advisory letter.

(True: An advisory letter cannot be appealed, but physicians do have the right to file a written response. The written response is considered to be part of the public record and will be included with any public records requested on a physician.)
